Welcome to the next level

Professional & Advance Diploma Programs

OF

- 1. Clinical Pharmacy Management*
- 2. Hospital Pharmacy Management*
- 3. Computer Fundamentals in clinical Research*
- 4. Clinical Research documents & Management*

Higher education in pharmacy professionals: an unmet need

India is today poised as one of the favorable destination for pharmaceutical field in terms of large research & development (R&D).

Pharmaceutical is a highly specialized field that requires specialization in pharmaceutical science & training to carry out various job functions. The need and complexity of the specialization and training at the level of R&D, quality assurance (QA) as well as academics, increases as they move up the professional ladder thereby shifting the focus from 'trouble shooting' to 'planning & forecasting'.

RAHE is aimed at imparting higher education with specialization in pharmaceutical science and clinical research skills required for the professional growth & competency development at the level of R&D and allied pharmaceutical research professionals.

Coaching objective(s):

- To provide an in-depth knowledge & opportunity for skills development in pharmaceutical science & clinical research
- To nurture the culture of 100% academic & research
- Competency development

Target audience:

- Pharmaceutical specialization professionals employed in pharmaceutical companies, Hospitals, contract research organizations (CROs), research & academic institutions *etc.*

About the academy:

Professional diploma is being run by Ratiram Academy of Higher Education (RAHE). *RAHE* is a pharmaceutical Science academy with a prime focus on making a way for higher education with specialization in different pharmaceutical field. With regards to pharmaceutical higher education, *RAHE* has made pioneering initiatives in terms of;

1. **PDCPM** (Professional Diploma in Clinical Pharmacy Management)
2. **PDHPM** (Professional Diploma in Hospital Pharmacy Management)
3. **PDCFCR** (Professional Diploma of computer fundamentals in Clinical Research)
4. **ADCRDM** (Advance Diploma in Clinical Research Document and management)

DIRECTOR:

Mukesh Kumar (M.Pharm in Clinical Pharmacy), Director-Ratiram Academy of Higher Education (RAHE) is GATE 2003 qualified and has 5 years of exclusive GATE coaching experience & 3 year of Clinical Research Experience.

- Vice President of IYPA (Indian Youth Pharmaceutical Association)
- Awarded certificate of FDA MedWatch and patient safety from US FDA
- Awarded certificate for membership of ISCR (Indian Society of Clinical Research)
- Life membership of IPGA (Indian Pharmaceutical Graduate Association)

Programs overview:

PDCPM / PDHPM / PDCFCR and ADCRDM consist of multi-disciplinary approach of skills enhancement including induction, self-reading and assignments / mock documents practical. The total course duration is 6 months.

Programs Element	Duration	Mode	Description
Induction & dispatch of study material	10 day	Telephone, e-mail & courier services	1:1 interaction between the RAHE-director and the participant in order to ascertain the developmental needs, focus area and intensity of classes.
Self-reading	120 days	Study material	Customized study material holistically covering the respected program modules.
Assignment	30 days	Paper based	Participant's perception & opinion on pre-designed questionnaire.
Evaluation	15 days	Paper based	Evaluation of respected program modules
Result Preparation	5 days	Paper based	Dispatch of result in time line

PDCPM

Module 1: Introduction to Clinical Pharmacy

Module 2: Pharmacotherapeutics & Case Studies

Module 3: Overview of clinical research methodology in Pharmacy

Module 4: Drug Evaluation and Pharmacoeconomics management

Module 5: Prescription issues & their management

Duration: 6 Months distance learning (through correspondence)

Eligibility: B.Pharm (3rd year student own word can enroll)

PDHPM

Module 1: Introduction to Hospital Pharmacy

Module 2: Process & management of product handling

Module 3: Pharmaceutical care overview

Module 4: Product supplies management

Module 5: Duties, responsibilities & guidelines

Eligibility: D.Pharm (2nd year onward), B. Pharm (3rd year student onward)

Duration & Mode: 6 Months distance learning (Through correspondence)

PDCFCR**Module 1: Introduction to computer Science****Module 2: Basic Fundamentals of Computer****Module 3: Use of Computer in Clinical Research**

Eligibility: D.Pharm, B.Pharm, BMLT, BPT, MPT, BAMS, BHMS, BDS B.Sc Life Science, M.Sc (Life Science), B.Sc (Nursing), M.Sc (Nursing) B.Pharm (3rd year student onward)

Duration & Mode: 3 Months regular evening class (Three day in week)

ADCRDM**Module 1: Introduction Clinical Research Document****Module 2: Development & Review of Clinical Research Document****Module 3: Scientific Writing of documents in Clinical Research**

Eligibility: B.Pharm, B.Tech (Biotech), BMLT, BPT, MPT, BAMS, BHMS, BDS B.Sc Life Science, M.Sc (Life Science), B.Sc (Nursing), M.Sc (Nursing), M.Sc (Life Science) B.Pharm & B.Tech (3rd year student onward)

Duration & Mode: 3 Months regular evening class (Three day in week)

Fee Structure:

Fee for Indian Aspirants in Rs. & for Oversea in US Dollar		
Program	Fee (Rs.)	Fee (\$)
PDCPM	5800/-	255/-
PDHPM	4800/-	200/-
PDCFCR	6800/-	---
ADCRDM	9600/-	---

Candidates are required to send their completed applications along with a Demand Draft of 'requisite program fee' drawn in favor of "Ratiram Academy of Higher Education." payable at Delhi. Candidates are advised to write their name and address at the back of demand draft.

Applications completed in all respects should be sent to:
